

Hoffman, Barney & Foscari Division – Limited Edition High-End Trench Coats | The Concept

Hoffman, Barney & Foscari Trench Coats is the exclusive fashion line of garments and the pioneering expression of the Clothes Division of Hoffman, Barney & Foscari. Its first sartorial creation is represented by the iconic, exclusive, limited edition trench coat, available only on demand and requiring a long lead time of at least six months prior to the expected delivery date, due to its unique artisanal characteristics.

Alongside this extraordinary piece - born from the imagination of the creative mind and inspired by films such as "In My Inner World" (produced by the Films Division of Hoffman, Barney & Foscari) and by broadsheets such as "Retrospective", published by the London-based publishing house Ghislandi & Gutenberg) - there is also a dynamic and pop line of trench coats. This collection features patterns drawn directly from the original Londonmade abstract designs by Hoffman, Barney & Foscari. Hoffman, Barney & Foscari Trench-Coats is only the first of several clothing lines scheduled to be launched in the near future by the Hoffman, Barney & Foscari Factory
